Subject: Wyoming Building Commission Still to Approve Use

Laurel,

This is government at its best - We have been notified of an additional step in securing your June 24th hearing room. We are filling out a form that has be approved by the Wyoming Building Comission because we are using the building after hours. It should only take a couple of days, and more than likely will sail through, but I didn't want you going out for public notice and then get informed that the location wouldn't work. So if you will put up with a bit more paper work, I will let you know as soon as I hear that the special request has been approved.

Sorry for the delay.

Tina
